

Re: Letter of Guarantee

This is to certify that all packaging containers, lids, clamshells and trays produced by Pinnpack are guaranteed to not be adulterated or misbranded within the meaning of the Federal Food, Drug and Cosmetic Act. Pinnpack packaging products are not hazardous or contain banned hazardous substances within the meaning of those terms under the Federal Hazardous Substances Act. These products, as supplied, are manufactured from approved raw materials, and production is performed using general Good Manufacturing Practices.

All packaging containers are manufactured from PET sheet (Polyethylene Terephthalate), which is safe for food contact as per the FDA's **21 CFR 177.1630**. The PET resin, and its constituents as described in **21 CFR 177.1315 (B) (3)**, has been determined to be acceptable and may be used as a component of food contact articles or containers in compliance with the FDA's Food Contact Notification (**FCN**) **000635** covering PET Polymers.

Additionally, Pinnpack may employ use of up to 100% post-consumer recycled PET (PCR) processed in compliance with the letters of Non-Objection issued by the FDA as suitable for use in food contact packaging under specified conditions described in FDA groups (a) through (h), and (j).

And all containers and lids manufactured by Pinnpack are in compliance with **7 CFR 205.272** and **California Prop 65**, and do not contain any synthetic fungicide, preservative, fumigants, PFAS' or phthalates, such as **diisononyl phthalate (DINP)**.

This statement is self-renewing and does not expire.

Regards,

A handwritten signature in blue ink that reads "RSc".
